

SHADE STRUCTURE

Golden Pacific SHADE STRUCTURES are ideal for almost any growing or retail application. These solidly built structures will help protect crops and customers from the sweltering heat of the sun. 4" square galvanized steel columns, strategically spaced on 24' centers, support a series of 18" tall bolt-together truss assemblies. A variety of fixed or retractable shade fabrics can be suspended from the frame work.

Consisting of 2" galvanized steel square tube upper and bottom cords, with 1.315" round pipe webbing, this exceptionally strong truss system requires no cabled "dead-man" supports.

ZONE LAYOUT

PRICING SCHEDULE
 Zone "A" = \$1,636.00 Each
 Zone "B" = \$1,130.00 Each
 Zone "C" = \$740.00 Each

PRICING EXAMPLE

For a 72' wide x 96' long structure

1 "A" zone x \$1,636	=	\$ 1,636.00
5 "B" zones x \$1,130	=	\$ 5,650.00
6 "C" zones x \$740.00	=	\$ 4,440.00
Total Materials Price		\$11,726.00

Prices are based on 10' tall side wall height and exclude shade fabric, fabric fasteners, retractable drives, freight, sales tax and or installation labor. Prices are subject to change without notice. Structures are for unoccupied agricultural use only and not engineered to meet local building codes. Failure to remove / retract shade fabric during any form of moisture accumulation, or strong winds, may result in structural damage.
